

## FOUR4 MT Business Class Desktop Series

*The all new FOUR4 MT Desktop Series features a powerful and highly scalable mainstream desktop that delivers outstanding performance and can significantly boost productivity.*

### Ready For Anything

The all new FOUR4 MT Business Class Desktop Series delivers outstanding performance, dependability, and generous expansive capability. Powered by Intel's® breakthrough Core™ (i7, i5 or i3) or Pentium™ processors, the FOUR4 MT Business Class Desktop Series delivers more responsive multi-tasking, adaptable performance and built-in visual capabilities to bring more intelligent performance. With two external 5.25 drive bays and two 3.5" drive bays (one external and one internal), the FOUR4 MT Business Class Desktop Series gives you countless ways to customize for any application or environment. Additionally, the FOUR4 MT Business Class Desktop Series' toolless chassis offers simple and direct access to system components and upgrades. The FOUR4 MT Business Class Desktop Series also offers an upgradeable 360W ATX 80+ Gold power supply for additional power savings.

### Integrated Security and Control

The FOUR4 MT Business Class Desktop Series features Intel® Core™ vPro™, which is designed to deliver cost savings and control for businesses while improving security and remote manageability. Unlike software-only solutions, these advantages are

built right into the processors, chipset, and network adapters, which allow a variety of management, security, and power saving options that are otherwise impossible. Integrated TPM 1.2 adds another layer of security and protection for your desktop.

### Excellent Video Quality Already Included

The FOUR4 MT Business Class Desktop Series provides users with an excellent blend of graphics performance and features (including integrated DVI-I, DVI-D, & DisplayPort graphics output) without the extra expense of add-in video cards or decoders.

### Ready and Willing

The FOUR4 MT Business Class Desktop Series is also Windows® 7 ready, so it runs faster and is more secure and reliable, which can aid in maintaining high office productivity.
