Aurora 510A Series Notebook

Experience the Aurora 510A Series Notebook, a brilliantly savvy laptop that fuses electrifying performance with a sleek and lithe design. Powered by Intel's® latest GM965 Express Chipset, Aurora provides an exceptional system with enhanced 3D graphics performance. Key features include the Intel® Clear Video Technology, which provides outstanding video playback with sharper image quality, increased clarity, and customizable color controls. The Intel® Graphics Media Accelerator X3100 also enhances high definition experience with improved HDTV connectivity and High Definition Multimedia Interface (HDMI). Aurora also supports the Intel® Wireless 4965AGN, which offers deployment flexibility and connectivity convenience via a quad mode solution, including Draft-N. Four high-speed USB 2.0 ports make it simple to connect to peripheral, communication and consumer electronic devices. As a result, the Aurora 510A Series Notebook is the perfect balance of powerful performance and versatility, designed to meet a broad range of business needs, and can significantly enhance on-the-job performance and productivity.
