

B53E Notebook

The B53E Notebook is a sleek, feature-rich and budget-friendly notebook built with the professional road warrior in mind.

Exactly What You Need

The all new B53E Notebook from NCS reflects innovative design at its best; a reliable and secure business solution built to deliver the power and performance across a full spectrum of uses.

- **Performance Second to None:** The B53E Notebook harnesses the power of Intel's® breakthrough second generation Core Processors, allowing maximum processing performance in response to peak demands. You'll fly through all your tasks with ease and significantly boost productivity!
- **The Real World:** The B53E Notebook features design elements for real everyday use, such as an aluminum case, a spill proof keyboard and track pad, long battery life, a large bright display, and an optional solid-state hard drive.
- **Feel Secure:** The B53E Notebook delivers a host of hardware security features such as TPM, a Smartcard reader, a fingerprint reader, and optional hardware-based encrypted hard drives. The B53S also supports the latest in software security; including Computrace® asset management software from Absolute® Software.
- **Excellent Video Quality Already Included:** Powered by the Mobile Intel® HM65 Express Chipset, the B53E Notebook provides users with an excellent blend of graphics performance and features without the extra expense of add-in video cards or decoders.
- **Ready and Willing:** The B53E Notebook is Windows® 7 ready, so it runs faster, is more secure and more reliable, which aids in maintaining high office productivity.
- **Save Time & Boost Productivity:** The B53E also features an optional docking station. It's convenient one-step detachment saves you time (as opposed to disconnecting from multiple devices each and every time) and reduces wear and tear on your notebook ports.

B53E Notebook

CPU	Intel® 2nd Generation Core™ i3/i5/i7 Processors Intel® Celeron® Dual-Core Processors
Chipset	Intel® HM65 Mobile Chipset
System Memory	2 DIMM sockets Supports up to 8 GB 1333 DDR3 Memory
Display	15.6" (16:9) HD 1366x768 LED Backlight Display
