

Meridian Medical Tablet

The Meridian Medical Tablet is engineered specifically for the rigors of the clinical environment. Whether it's a ward, clinic, or emergency room—the Meridian is a lightweight and indispensable tool for clinicians to use throughout their shift. In addition, this solid, durable workhorse boasts hot-swappable batteries, is fully sealed and water-proof (IP-65 Standards) and can sustain a drop of up to 4 feet.

Sleek and Lightweight

Designed to comply with Intel's® reference design, the Meridian Medical Tablet features a clean, attractive design and weighs only 2.81 lbs. The generous 10.4" screen display minimizes scrolling and eye strain.

Built to Optimize Workflow

The Meridian Medical Tablet includes an integrated 1D/2D barcode, which is a practical tool for matching each patient with the treatment being delivered, helping reduce medication-dispensing errors. Meridian's 13.56 MHz RFID Scanner (with ISO 14443A/B and ISO 15693 support) also helps medical staff to identify patients and verify themselves as authorized care-givers. All of these features work together to improve workflow, ease workloads and reduce errors.

Engineered to Go the Distance

The Meridian comes with twin batteries, which enables hot-swappable operation when away from the docking station. This means minimal down time for the Meridian, making it ideal for supporting shift-long use.

Meridian's Integrated Features Enable Clinical Data Capture

The Meridian includes a 2 MP web-enabled camera that can also capture video, enabling quicker and more detailed documentation of wounds, surgical sites, range of motion and more. Photos and/or videos can then be stored directly into the patient's electronic medical record (EMR), enhancing documentation and collaboration.

Keep Up to Date No Matter Where You Are, And Automatically Upload

The Meridian offers an array of embedded wireless capabilities (such as Bluetooth and optional 3G wireless functions) to stay connected and automatically upload information such as patient vital signs and other data into the electronic medical record (EMR).

Keeps Your Data Secure

An integrated biometric fingerprint reader adds an additional layer of security by restricting unauthorized access.

MERIDIAN MEDICAL TABLET FEATURES AT A GLANCE

CPU	Supports a Intel® Core™2 Solo ULV Processor (U2200 (1.2GHz) or U2100 (1.06GHz))
Chipset	Ultra Mobile Intel® 945GE Express Chipset
Hard Drive	1.8" 4200RPM Hard Disk Drive Support
Video	Integrated Mobile Intel® Graphics Media Accelerator 950
Integrated Features	RFID Reader, Barcode Scanner, 2 MP Camera and Fingerprint Reader
Wireless Communication	Mini PCI Express Card Wireless LAN 802.11 a/ b/g/n Support CCX Function (Roaming) Bluetooth v2.1 and Supports Enhanced Data Rate (EDR) Optional 3G Module for WWAN
Battery	Dual Hot-Swappable Battery, up to 5 Hours of Operation Time
Display Screen	10.4" XGA Active Matrix Color TFT, 1024 x 768 LED Backlit Touchscreen
Dimensions (L x W x D) & Weight	270 x 256 x 35.3 mm / 10.6 x 10.08 x 1.39 in (W x D x H); 1.28 kg / 2.81 lbs.)
